As a resident of Hanson, I am writing to support the Community Preservation Act (CPA) on the upcoming May ballot.

Editor, Hanson Express:

As a resident of Hanson, I am writing to support the Community Preservation Act (CPA) on the upcoming May ballot. The CPA will help us protect the rural character of Hanson that many of us currently enjoy. Through acquisition of open land and improving recreational and historic facilities such as Camp Kiwanee, we all benefit. Many of us grew up on the South Shore in the suburbs closer to Boston. Over the past 40 years much of the space in those communities has been developed into strip malls, condominiums and the like. That space is now gone forever. I cringe at the thought of that happening to Hanson. With CPA, we have an opportunity to better control our own destiny as a town. 127 communities throughout Massachusetts have already taken advantage of this program and have received matching funds from the state. To me, it's a great opportunity that I hope we take advantage of. Please come out in support of the CPA initiative with your vote on May 17. Thank you.
