At the annual Town Election on May 17, 2008, the citizens of Hanson have the opportunity to determine the manner in which the town will grow in the future by their votes in favor of a ballot question accepting the Community Preservation Act.

Editor, Hanson Express:

At the annual Town Election on May 17, 2008, the citizens of Hanson have the opportunity to determine the manner in which the town will grow in the future by their votes in favor of a ballot question accepting the Community Preservation Act. In past years, there has been very little money left when it came to funding warrant articles for open space, historic preservation, recreation and community housing. During this period, the character of the town began to change from its original rural characteristics to one with little free space for its citizens to enjoy. With the acceptance of the Community Preservation Act, it will allow the town to receive money from the state that would otherwise go to other towns that have accepted the Act.

The Board voted to endorse the Community Preservation Act by a count of 5-0-0 on April 7, 2008.
