The Hanson Recreation Commission would like to officially endorse the Community Preservation Act.

Editor, Hanson Express:

The Hanson Recreation Commission would like to officially endorse the Community Preservation Act. With many surrounding towns already accepting this Act, it is, we believe, a true opportunity for the town and for Camp Kiwanee, a town owned historic/recreational facility to have these funds available. As town budgets get tighter and tighter, the funding for the recreational arena becomes smaller. We anticipate these funds will alleviate the need for the Recreation Commission to continually bargain for the same funds that the Police/Fire and other necessary town departments seek from the Finance Committee. It is the plan of the Recreation Commission to implement a new boating program, build a new dock system for the Camp, redesign our parking facilities, and re-roof the entire lodge building, as well as other unforeseen projects that arise out of necessity. Wouldn't it make sense to have a Community Preservation Fund available, as this is our community we are trying to preserve? This type of funding, we believe, is long overdue and makes sense for all of us. It certainly makes "cents" for Camp Kiwanee and the Hanson Recreation Commission!
